STATE OF NEW YORK
DEPARTMENT OF CORRECTION
STATE OFFICE BUILDING
ALBANY

February 15, 1945.

To the Honorable Legislature of the State of New York:

I have the honor to transmit herewith the Fifteenth Annual Report of the Commissioner of Correction on Crime Statistics for the period beginning January 1, 1944, and ending December 31, 1944, pursuant to Title 10, Part 6, of the Code of Criminal Procedure.

Very respectfully yours,

(SIGNED) JOHN A. LYONS, *Commissioner.*

1944 per - PEP

72 Kind of sentence by crime convicted of	267
72A Kind of sentence by county	268

TITLE X

Of Criminal Identification, Records and Statistics

- SECTION 940. Identifying criminals; taking of finger-prints.
941. Forwarding finger-prints for identification.
942. Commissioner of Correction to classify, identify and report.
- 942.-a Information to be presented to the court.
943. Finger-prints and other records to accompany the prisoner.
944. Cooperation with Federal Bureau of Identification.
945. Central Bureau of Criminal Identification.
- 945.-a Old records to be consolidated.
946. Records at Washington and New York City.
- 946.-a Interchange of records.
947. Statistics.
948. Commissioner of Correction to report to Legislature.
- 948.-a Further reports on crime.
949. Officers to furnish information.

§ 2. Sections nine hundred and forty-one to nine hundred and forty-six inclusive of said code are hereby repealed.

§ 3. The said title is hereby further amended by inserting therein fourteen new sections to be known as sections nine hundred and forty to nine hundred and forty-nine inclusive and to read as follows:

§ 940. *Identifying Criminals; Taking of Finger-Prints.* In order that the courts and public officials dealing with criminals may have accurate information as to the identity of persons charged with crime, there is hereby conferred and imposed upon the chief of police or peace officer performing such functions, in each city, town or village, and upon sheriffs, members of the state constabulary, the railway police, the aqueduct police, the state park police and all other police officers making arrests, the power and duty of causing to be taken, upon arrest, finger-prints and thumbprints, and if necessary the photograph, and if necessary the blood grouping tests, of every person arrested and charged with a felony or with any of the misdemeanors and offenses specified in section five hundred and fifty-two of this code. Members of the state police, upon arresting a person or persons for any felony or any of the misdemeanors and offenses specified in section five hundred and fifty-two of this code, may transport and bring said persons arrested to their troop headquarters for the purpose of fingerprinting and thumbprinting and photographing and if necessary blood grouping. (Added by L. 1928, ch. 875, in effect July 1, 1928; amended L. 1939, ch. 202; L. 1943, ch. 592, eff. Sept. 1, 1943.)

§ 941. *Forwarding Finger-Prints for Identification.* Upon the taking of such finger-prints one copy thereof shall be promptly forwarded by such police or peace officer to the state central bureau of criminal identification of the department of correction at Albany, and one copy shall be forwarded to the criminal identification unit of the United States department of justice at Washington. Each finger-print shall legibly contain the points necessary to afford accurate and complete classification by the state department of correction, namely, the deltas and cores. In the event the prints are not so taken they shall be returned to the contributor with appropriate notations indicating the reasons and request that they be retaken if possible. Each such copy shall be accompanied by such information as may be available as to any previous record of the person arrested and the circumstances of the crime charged and for which he is then held, with a request that all information on file in the department of correction, and in the United States department of justice, as to the previous record, if any, of such persons be forthwith transmitted to the police or peace officer from whom such request emanates, and the department of correction at Albany. (Former § 941 repealed; new § 941 added by L. 1928, ch. 875, in effect July 1; am'd by L. 1935, ch. 606, in effect Sept. 1; L. 1937, ch. 418, in effect July 1, adding 2nd and 3rd sentences.)

§ 942. *Commissioner of Correction to Classify, Identify and Report.* Upon receipt of such finger-prints, it shall be the duty

of the commissioner of correction to cause them to be classified, if not already classified, and to cause his records to be searched for information as to the previous record, if any, of the person to whom such finger-prints pertain, and to promptly transmit to the police or peace officer from whom they came full information as to such previous record. If there is no previous record he shall report that fact. The report of the commissioner of correction certifying to the previous criminal record of any person shall be presumptive evidence of the facts so certified. (Former § 942 repealed; new § 942 added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 942.-a *Information to be Presented to the Court.* Upon receipt of such information from the state department of correction, the chief of police or other peace officer to whom such information has been sent shall promptly transmit such information and any other information in his possession with regard to the case to the district attorney of the county. After the person concerned has been found guilty, and not otherwise, the said district attorney shall submit to the judge, justice or magistrate before whom the prisoner is arraigned for sentence, the information received from such department of correction and all other information available, including any reports that may have been made as a result of a mental, psychiatric or physical examination of such person, provided, however, that nothing herein contained shall be construed to modify, interfere with, or change the present system for forwarding to or furnishing information for the use of a court to authorized probation officers of the court. The clerk of the court in which the prisoner is arranged* shall promptly report to the state department of correction and to the chief of police or peace officer who made the arrest the sentence of the court, or other disposition, of such person. (Added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 943. *Finger-prints and Other Records to Accompany the Prisoner; Certified Copy of Finger-prints to be Sent to Police Department.* Hereafter whenever a person is convicted of a felony or of any of the misdemeanors and offenses specified in section five hundred and fifty-two, before sentencing such person the court shall have before it the fullest information available as to the previous criminal record, if any, of such person, as well as his social history, including any reports that may have been made as a result of a mental, psychiatric or physical examination of such person. Such information, in addition to that required by section four hundred and eighty-five-a, with a copy of the prisoner's finger-prints duly certified by the clerk of such court, in a sealed envelope, shall accompany such person to the prison, reformatory, penitentiary or other penal institution in which he is to be

* So in original. Evidently should be "arraigned."

confined; and shall be brought to the attention of the head of such institution at the time of the prisoner's arrival and shall remain there while the prisoner is therein confined. Upon the arrival of a prisoner at any such institution his finger-prints shall be at once taken and shall be compared with those on such record, for the purpose of making sure that such person is the same person as the person so convicted. If found not to be the same person he shall be forthwith returned to the court from which he was committed, with a statement to the effect. In addition thereto, a copy of the prisoner's finger-prints taken after conviction, shall be duly certified by the clerk of such court, setting forth the crime of which the prisoner was convicted, and the sentence imposed on him, and shall be forwarded to the bureau of criminal identification of the police department of the locality in which the arrest relating thereto shall have been made. Upon receipt thereof such finger-prints shall be compared with those taken of the prisoner at the time of his arrest for the purpose of making sure that such person arrested is the same person as the person so convicted. If found not to be the same person such police department shall notify the district attorney of the county in which conviction occurred to that effect. (Former § 943 repealed; new § 943 added by L. 1928, ch. 875, in effect July 1, 1928; amended by L. 1940, ch. 665 eff. Sept. 1, 1940.)

§ 944. *Cooperation with Federal Bureau of Identification.*

Upon receipt of finger-print information from the identification division of the federal bureau of investigation of the United States department of justice at Washington, the commissioner of correction shall file it with the records of such finger-prints in the department of correction in Albany. (Former § 944 repealed, new § 944 added by L. 1928, ch. 875, in effect July 1; amended by L. 1935, ch. 606, in effect Sept. 1.)

§945. *Central Bureau of Criminal Identification.* There is hereby established in the division of criminal identification, records and statistics of the department of correction at Albany a central bureau of criminal identification, records and statistics in which shall be kept systematically on file, in accordance with the latest methods, complete finger-print records and photographs of persons charged with or convicted of crime. The nucleus of such records shall be the records now on file in the department of correction, which shall be added to by the reports of police and peace officers as provided for in this act. In addition to such finger-print records, the commissioner of correction may keep such other information with reference to criminals and their records and methods of work as may seem to him desirable to accomplish the ends sought by this act. The commissioner of

correction shall determine the form of such records which, so far, as may be practicable, shall coincide with those of the bureau of criminal identification of the United States department of justice, in order to permit easy interchange of records throughout the nation. (Former § 945 repealed; new § 945 added by L. 1928, ch. 875, in effect July 1, 1928.)

§945.-a *Old Records to be Consolidated.* As rapidly as his appropriations and his work will permit, the commissioner of correction shall transfer from the various state prisons, penitentiaries, reformatories and other penal institutions of the state the individual records of the criminal histories of persons now and heretofore confined in such prisons, penitentiaries, reformatories and institutions, and shall consolidate them in the central bureau of criminal identification at Albany. It shall be the duty of the heads of all such institutions upon request of the commissioner of correction to transmit to him such individual records and individual case histories of persons so confined. There shall, however, be maintained at all such institutions during the time that prisoners are therein confined complete individual case histories of each prisoner so confined. (Added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 946. *Records at Washington and New York City.* The commissioner of correction shall, as soon as practicable, have all existing criminal records in the department of correction compared with similar criminal records on file in the police department of the city of New York and with similar criminal records on file in the bureau of criminal identification of the United States department of justice at Washington, and any information that is on file in either of such places shall be added to his records, to the end that such records shall be made as complete as possible. In order to accomplish the bringing up to date of these old files the commissioner of correction is authorized to contract with any firms, individuals or corporations for the re-writing of such records on new forms, the furnishing of such forms and the general re-establishment and consolidation of such old files, in order that the current work of the department may be kept up to date, and these old files brought into current use at the earliest possible moment. (Former § 946 repealed; new § 946 added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 946.-a *Interchange of Records.* Upon request, the commissioner of correction shall promptly furnish from the records on file in his department full information as to the criminal history of any person, to the chief of police of any city, town or village either within or without the state and to all public officials having a legitimate interest therein. The commissioner may adopt regulations with regard thereto. All individual records on file

in the central bureau of criminal records shall be kept safely locked up when such bureau is not open. (Added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 947. *Statistics.* The division of criminal identification, records and statistics of the department of correction shall prepare annually reports of criminal statistics giving the statistics of crime and criminals in the state for each year. Such reports shall be a true and accurate picture, so far as is possible, of the crime situation in the state. They shall set forth the number and nature of all crimes reported or known to the police, of persons arrested, of persons tried by the criminal courts and the action taken with relation thereto. Of persons convicted such reports shall show the sex, age, nativity, whether previously convicted of any crime and the number of such convictions. Of persons convicted, such reports shall also show for what crimes convicted the number convicted by trial and on a plea of guilty, the number fined, the number in which sentence was suspended, the number in which an appeal was taken and the result of such appeals. Such reports shall also show the number and nature of persons placed on probation, of persons whose probation is revoked, of persons committed to and released from state, county, and local prisons and other penal institutions, persons committed to and released from reformatory institutions, of persons released on parole or whose sentence is commuted, and the unexpired period of such sentence of persons pardoned by the governor, and such other information of statistical value as the commissioner of correction shall determine. For the purpose of these reports crimes shall be classified and compiled in such form as to enable the commissioner of correction to cooperate with agencies of the United States government in maintaining uniform and comparable criminal statistics on a nationwide basis, and to present the full facts about crime. (Added L. 1928, ch. 875, in effect July 1; am'd 1935, ch. 686, in effect Sept. 1.)

§ 948. *Commissioner of Correction to Report to Legislature.* The commissioner of correction shall on or before February fifteenth in each year transmit to the legislature the report of crime and criminals for the preceding calendar year provided for in section nine hundred and forty-seven. Such reports shall be in printed form and a sufficient number of copies shall be printed by the commissioner of correction to enable him to send a copy to all public officials in the state dealing with criminals, as well as to make a general distribution of it in channels where it will add to the public enlightenment. (Added by L. 1928, ch. 875, in effect July 1; amended by L. 1935, ch. 686, in effect Sept. 1.)

§ 948.-a *Further Reports on Crime.* It shall be the duty of the head of the division of criminal identification, records and statistics to study constantly from the records in his charge and from other available sources the facts about crime, and, from time to time, to make special reports at the request of the commissioner of correction on various aspects of the subject to the commissioner of correction with charts, graphs, maps, diagrams and illustrative material which may be included in the annual report or published from time to time at the discretion of the commissioner of correction. (Added by L. 1928, ch. 875, in effect July 1, 1928.)

§ 949. *Officers to Furnish Information.* It is hereby made the duty of every clerk of every court of criminal jurisdiction, both of courts of records and otherwise, including magistrates' courts, police justices' courts, city courts, recorders' courts and justice of the peace courts, or if there be no clerk, of every judge or justice of such court; and of every sheriff and head of every police department, state, county, or local, and also railroad, steamship, park, aqueduct and tunnel police and town constables, of every district attorney of every probation or parole agency; and of every warden, superintendent or head of every institution or department, state, county and local, dealing with criminals, and of every other officer or person whose duties make him the appropriate officer, to transmit to the commissioner of correction not later than the fifteenth day of each calendar month, or at such times as provided in the rules and regulations adopted by the commissioner of correction such information as may be necessary to enable him to comply with the provisions of section nine hundred and forty-seven. Such reports shall be made upon forms which shall be supplied by the commissioner of correction. For every neglect to comply with the requirements of this section, the person responsible shall be subject to removal from office for neglect of duty. (Added by L. 1928, ch. 875, in effect July 1; amended by L. 1935, ch. 686, in effect Sept. 1.)

4. This act shall take effect July first, nineteen hundred and twenty-eight.

STATE OF NEW YORK,	}

I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom and of the whole of said original law.

ROBERT MOSES,
Secretary of State.

STATE OF NEW YORK
DEPARTMENT OF CORRECTION
STATE OFFICE BUILDING
ALBANY

February 15, 1945

Hon. John A. Lyons
Commissioner of Correction
Albany, N. Y.

DEAR COMMISSIONER LYONS:

I have the honor of transmitting herewith the Fifteenth Annual Report on Statistics on Crime for the year 1944 as required by Title Ten, Part Six, of the Code of Criminal Procedure, which was compiled under the direction of Agnes Maloney, Statistician.

Respectfully submitted,
(SIGNED) PAUL D. McCANN,
Director of Criminal Identification.

OPINIONS OF THE DEPARTMENT OF LAW

Opinion No. 1

A question is raised by the County Clerk as to whom is responsible for rendering the reports required by Section 949 of the Code of Criminal Procedure. That section reads as follows:

It is hereby made the duty of every Clerk of every Court, both Courts of Record and otherwise, including Magistrates Court and Justices Court or if there be no Clerk, of every Judge or Justice of such Court and District Attorney and every head of every Department, Bureau and Institution, State, County and Local dealing with criminals and of every other officer or person whose duties make him the appropriate officer to transmit, not later than the 15th day of each calendar month to the Commissioner of Correction such information as may be necessary to enable him to comply with the provisions of Section 940-7. Such reports shall be made upon forms which shall be supplied by the Commissioner of Correction. For every neglect to comply with the requirements of this Section, the person responsible shall be guilty of a misdemeanor, punishable by a fine of \$100.00.

In ——— County there is, according to the County Clerk's letter, a Court Clerk appointed by the Justices of the Supreme Court, presiding in the ——— judicial district. This appointment is made pursuant to Section 169 of the County Laws providing as follows:

Deputy Clerks. 1. In every County other than Counties of Queens, Dutchess, Orange and Rockland the County Clerk may, from time to time by an instrument of writing, file in his office, appoint and on pleasure remove, one or more Special Deputy Clerks to attend upon any or all of terms or sittings of the Court of which he is Clerk and in any County having a population of more than 60,000 at the last enumeration. The salary of such Special Deputy Clerks shall be fixed by the Board of Supervisors of such Counties and when the said salary shall be so fixed the same shall be paid from the Court funds of the said County or from an appropriation made therefor. Each person so appointed must, before he enters upon the duties of his office, subscribe and file in the Clerks' office the constitutional oath of office; and he possesses the same power and authority as the Clerk at any sitting or terms of the Court which he attends with respect to the business transacted thereat. The salaries of special deputy clerks and assistants appointed in Queens County under the provisions of Section 169 of the Judiciary Law shall be fixed by the Justice presiding in such county and shall be County charged. The provisions of this sub-division shall not apply to the Clerks judicial department.

All special deputy clerks appointed in the counties of Dutchess, Orange and Rockland situated in the 9th Judicial District hereunder shall be appointed by the Justices of the Supreme Court presiding in said District or a majority of them which appointment shall be filed in writing in the Clerks office of the County affected thereby and the salaries of said deputy clerks shall be fixed by the Justices making the appointment as hereinbefore provided.

Whether the Court or the County Clerk should make the report is the precise question involved.

Although described as Court Clerks it is evident from the reading of the above quoted Section of the County Law that this official is special deputy clerk. That the Clerk of the County is the Clerk of the Supreme and County Courts in his County is apparent from a reading of the following:

Article XII, Section 21 of the Constitution provides in part:

The Clerks of the several Counties shall be clerks of the Supreme Court with such powers and duties as shall be prescribed by law.....

Section 161 of the County Law insofar as the material here provides:

The County Clerk shall: 11. Be Clerk for the County Court in his County.

Being the Clerk of the Supreme and County Court the duty therefore is upon the County Clerk of _____ County to furnish the reports required from these Courts.

You further inquire as to your authority to demand the required reports from Justices of the Peace when you are not permitted to pay them fees and have no funds to pay postage on them. Section 949 of the Code of Criminal Procedure makes it the duty of the Justice of the Peace to furnish these reports. They are entitled to no fees therefor and all postage charges must be borne by them.

Opinion No. 2

You request information as to how you shall proceed when Police Chiefs, Police Justices and Court Clerks fail to file with your department monthly reports required by Section 949 of the Code of Criminal Procedure. Section 949 of the Code of Criminal Procedure provides as follows:

It is hereby made the duty of every Clerk of every Criminal Court both of Courts of Records and otherwise, including Magistrates Court and Justices Court or if there be no Clerk, of every Judge or Justice of such courts and every District Attorney and every head of every Department, Bureau and Institution, State, County and Local dealing with criminals and every other officer or person whose duty makes him the appropriate officer to transmit not later than the 15th day of each calendar month to the Commissioner of Correction such information as may be necessary to enable him to comply with the provisions of Section 947. Such reports shall be made upon forms which shall be supplied by the Commissioner of Correction. For every neglect to comply with the requirements of this Section the person responsible shall be guilty of a misdemeanor, punishable by a fine of \$100.00.

You will note that the last sentence makes the person responsible guilty of a misdemeanor punishable by a fine of \$100.00. Your remedy therefore is to secure warrants for these various officials for a violation of this Section.

Opinion No. 3

Regarding the necessity of a night watchman of a Village making reports to the Commissioner of Correction pursuant to the provisions of Section 947-949 inclusive of Code of Criminal Procedure.

Section 949 of the Code of Criminal Procedure provides as follows:

It is hereby made the duty of every Clerk of every Criminal Court both of Courts of Record and otherwise, including Magistrates Court and Justices Court or if there be no Clerk, of every Judge or Justice of such courts and every District Attorney and every head of every Department, Bureau and Institution, State, County and Local dealing with criminals and every other officer or person whose duty makes him the appropriate officer to transmit not later than the 15th day of each calendar month to the Commissioner of Correction such information as may be necessary to enable him to comply with the provisions of Section 947. Such reports shall be made upon forms which shall be supplied by the Commissioner of Correction. For every neglect to comply with the requirements of this Section the person responsible shall be guilty of a misdemeanor punishable by a fine of \$100.00.

Mayor of the village of ———, who by virtue of this fact is Chief of Police of the Village, states that one ——— who is employed by the Village as night watchman has been asked to make reports under the above section. He is not a Clerk of a Police Court, nor is he a peace officer by his title.

I believe that under the circumstances Mr. ——— should not be required to make reports under Section 949 of the Code of Criminal Procedure.

Opinion No. 4

Are the District Attorneys of the respective Counties required to file reports of conviction with the County Clerks pursuant to Section 941 of the Code of Criminal Procedure as it existed before the enactment of Chapter 875 of the Laws of 1928?

You state that prior to 1928 District Attorneys of the State were required to file quarterly with the County Clerks of the various Counties certificates of conviction of persons convicted during the preceding terms of County and Supreme Court. You ask whether such reports are now required.

The requirement was contained in what was formerly Section 941 of the Code of Criminal Procedure which provided as follows:

Within ten days after the adjournment of any criminal court of record in this State, the District Attorney of the County in which the Court shall be held, shall furnish the Clerk of the County a certified statement containing the names of all persons convicted of crime in said court, the

crime for which convicted, whether the conviction was upon trial or upon a plea of guilty and whether sentence was suspended or the defendant placed on probation; the case in which counsel was assigned by the Court to defend the defendant; the sex, age, nativity, residence and occupation of the defendant; whether married or single; the degree of education and religious instructions; whether parents are living or dead, whether temperate or intemperate and whether before convicted or not of any crime, and any other information regarding them as may seem to him expedient. If necessary, in order to obtain information of these facts, the defendant, may be interrogated upon those in court by the District Attorney before judgment is pronounced. He shall also furnish to the Clerk of the Court a certified statement containing the names of all probation officers appointed by the court with their addresses and date of appointment.

This Section however, was expressly repealed by Chapter 875 of the laws of 1928 and since that time the statutes of this State have required no such statement.

Opinion No. 5

You requested an opinion as to whether a Justice of the Peace of the Town of _____, _____ County, may also serve as Chief of Police or in charge of the Constables or Special Police Officers of the town.

It appears from the correspondence enclosed with your letter that there is no Police Department proper in the Town of _____. The Town Clerk advised me that it was the intention of the Town Board that one of the Justices of the Peace should be given special duties and powers over Constables and should be considered as Justices of the Peace in charge of Constables and Special Police Officers but by inadvertence the resolution named the Justice of the Peace as Chief of Police.

In view of the fact that no Police Department has been established in the town of _____ the Town Board could not create the position of Chief of Police. The establishment of Police Departments in towns is provided for in Article 10 of the so called New Town Law. (Laws of 1932, Chapter 654 as amended.)

Section 158 of the New Town Law authorizes the appointment of special policemen in certain towns and insofar as pertinent reads as follows:

The Town Board of any Town of the first class and the Town Board of any town of the second class which shall have adopted the budget system, whether there is a police department in or for such town or not, may employ temporary police officers from time to time as the Town Board may determine their services necessary. Such police officers shall be known as special policemen and shall have all the power and authority conferred upon Constables by the general laws of the State and such additional powers not inconsistent with law as shall be conferred upon them by the town Board. They shall be subject to the general authority and direction of that Town Board and so such orders and regulations as the Town Board may prescribe, not inconsistent with law. . . .

I also desire to call your attention to Section 63 of the New Town Law relating to the presiding officers and rules of procedure of the Town Board. The last sentence thereof provides;

The Board may determine the rules of its procedure and the supervisors may from time to time appoint one or more committees consisting of members of the Board to aid and assist the Board in the performance of its duty.

I assume that the Justice of the Peace in the present instant may have been appointed a committee by the supervisor to assist the Town Board in the performance of its duty relating to the supervision of special police. There is, however, no authority to appoint a Justice of the Peace as Chief of Police.

The office of Justice of the Peace and Deputy Sheriff have been held incompatible.

(Opinion Attorney-General 1895 Page 106 and Attorney-General 1926, Page 238). Likewise, I believe a Justice of the Peace could not at the same time be a Chief of Police for the same reason that a Justice of the Peace could not be a deputy sheriff. In such a case, as a Justice of the Peace he might be in a position of ruling upon his own acts as Chief of Police.

While a Justice of the Peace being a member of the Town Board may be appointed by the supervisor on a committee relating to the duties of special police, such Justice of the Peace cannot act as Chief of Police in the instance mentioned in your inquiry.

INTRODUCTION

This report is compiled from the information received, pursuant to Sections 947 to 949 inclusive of the Code of Criminal Procedure, from the clerk or the presiding judge of every criminal court, from every district attorney and from the head of every department, bureau or institution, state county and local, dealing with criminals during the year ending December 31, 1944. This report contains police and judicial criminal statistics only, the collection and tabulation of which was supervised by Agnes Maloney, Statistician of the Department. Penal statistics are published in two separate departmental reports; the Annual Report of the *Commissioner* of Correction and the Annual Report of the *Commission* of Correction. Probation statistics are compiled annually by the Division of Probation and included in the report of the Commissioner. Parole statistics are published by the Division of Parole of the Executive Department.

As in previous years, the reader of this report is reminded that because of willingness on the part of the public to charge the crime rate of the community to the police that it is with some reluctance that information concerning the number of crimes committed in the State is published. If crime decreases, the courts, the district attorneys, the heads of all penal and correctional institutions, police, parole and other social agencies organized primarily to combat crime look for their share of the "glory" and if crime increases, they should likewise share in the blame.

The statistics presented in this report are tabulated in two parts. Part One consists of the data taken from the monthly reports of the Police, district attorneys and courts of the State. Part Two comprises the individual case histories of persons arrested for felonies and any of the offenses specified in Section 552 of the Code of Criminal Procedure.

While the data in Part One gives no information concerning the offender, except the sex of those arrested, it is more up to date and better represents the criminal condition of the State than that given in Part Two. The information given, however, should by no means be accepted as actual since some of the reporting agencies have filed no reports, many have filed only partial reports and other reports are inaccurate due to misunderstanding of the instructions.

The reports received from the police monthly include, so far as possible, the number of offenses committed within the territorial jurisdiction of the department making the report, the result of the police investigation of the crimes brought to their attention, the number of offenses closed by arrests, the number of offenses found to have been false or groundless upon investigation, the number for which no arrests were made and the number and the sex of the persons arrested and summoned.

The courts report monthly the number of offenders arraigned during the month and the action taken by the court, that is, the number convicted of the offense charged, the number convicted of a lesser offense, the number acquitted or dismissed, the number transferred to other courts, the number of bail forfeitures, the number held for the action of the grand jury, and, in County, Supreme and the New York County Court of General Sessions the action taken in regard to the indictments returned by the grand juries. For every conviction shown on the report, the sentence given the person must also be shown. With regard to the number convicted of a lesser offense, it is important to note that where a reduction in the degree of the offense charged was the only variation, it was tabulated as the same offense.

The district attorneys report monthly the origin of the defendants considered by the grand juries, that is, whether the defendants were held for the grand jury by a court of special sessions or whether the action originated in the first instance within the grand jury room, and the action taken by the grand juries on the defendants considered.

In addition to the monthly reports, the police issued, and started through the various stages in our criminal procedure, a set of individual case history cards for every person arrested by them who was charged at the time of arrest with a felony or one of the offenses in Section 552 of the Code of Criminal Procedure. It is from these individual case histories that the data presented in Part Two of the report is compiled and the information is more in detail concerning the type of individual making up our criminal element. It presents data on the operation of our criminal procedure from the arrest of the offenders until they are sentenced or otherwise released from custody by the courts and the variation in the offense charged in the various stages of prosecution. These reports are considerably delayed in being forwarded to the department due to crowded court calendars, inadequate clerical forces in our courts and the absence of trained workers in the field for inspection and instruction purposes. Because of the lack of this last mentioned personnel, it has been necessary to carry on this phase of the work by correspondence

which has not proven very satisfactory. Considerable misunderstanding exists on the part of some of those affected by this law regarding the content of the reports to be forwarded by them. Because of the vast amount of preliminary work, it is of the utmost importance that at least two persons be added to the staff for field work. From year to year, more agencies forward reports and with the completion of parts of the project at hand newer parts are taken up for improvement.

Because of conditions due to the war, it has been necessary to drop some of the Tables carried previously in this report. Those dropped appeared in previous reports in the detail section of Part One. This data by City and village as well as by county is available and will be furnished upon request.

PART ONE

Note.—Population figures furnished by the New York State Department of Health, Division of Vital Statistics.

Cities grouped according to the 1940 Federal Census.

Rates shown are based on number per hundred thousand of general estimated population.

Data includes all felonies and misdemeanors reported by the sheriffs and police during the year ending December 31, 1944.

Unable to compute rates on crimes reported and arrests made by the State Police, State Park Police, and the Railroad and Steamship Police, owing to inability to secure a correct population base.

Traffic infractions, infractions of local ordinances and infractions of orders of the New York State War Council have been omitted from the tabulations.

No reports were received or were received too late to be included in this reports from the following police departments, and for the months specified:—Arcade—October and December; Black River—December; Deposit—September to December inclusive; Eastchester Town Police—October, November and December; East Aurora—December; Fulton—October; Livingston County Sheriff's Office—December; Hermon—December; Monroe—December; South Nyack—September through December inclusive; Ossining Town Police—October, November and December; Perry—December; Randolph—November and December; Rye Town Police—December; Woodridge—August through December inclusive.

§ Traffic infractions have been removed for the last quarter of 1943. Auto Parking has been removed for all years shown in the tables. All types of infractions have been omitted from the 1944 tabulations.

* Places less than 10,000 population. Includes the cities of Long Beach, Merchanicville, Norwich, Salamanca, Canandaigua and Sherrill, as well as the rural section, the State Police, the Railroad and Steamship Police.

† Dropped below 10,000 population in 1940 Federal Census.

‡ Entered 10,000 population group in 1940 Federal Census.

|| Total shown differs from total of similar Table by County (Table No. 3D. This is caused by the method of crediting offenses reported as unsolved and subsequently solved. It is not always possible to credit all of these solutions by city or village, but due to the larger accumulation of unsolved crimes by county it is possible to write off more.

Note.—* Data in this column represents felony charges reduced by the courts to misdemeanors and which resulted in conviction for those misdemeanors.

† Figures appearing in this column include misdemeanants referred to the grand jury as well as those transferred to other courts.

D.O.R. means Discharged Own Recognizance.

Traffic infractions and infractions of local ordinances and infractions or orders of the New York State War Council have been omitted from the tabulations.

Reports of the local courts for the following localities and for the months specified were not received, or were received too late to be included in the tabulations: Barker—Entire Year; Bath—Entire Year; Bayville—July to December inclusive; Cherry Valley—December; Depew—November; Lynbrook—August; Massapequa Park—August, November and December; Ossining—September to December inclusive; Roslyn Heights—February to December inclusive; Sloan—December; Syosset—August; Walden—July to December inclusive; and Weedsport—Entire Year.

The number of Justices of the Peace submitting reports is negligible when compared with the number of these officers in the State.

† Can not name the misdemeanor. These are reported under the caption "Misdemeanors Prosecuted by Indictment."

Convictions opposite felonies in courts of special sessions represent reductions to misdemeanors and convicted of that misdemeanor.

* Courts of Record include the Supreme Courts, County Courts and the Court of General Sessions of the County of New York.

† Courts of Special Sessions include city, magistrates, police, recorders, justice of the peace courts and the Courts of Special Sessions of the City of New York.

Note.—Parking violations have been removed from all years. Infractions of all description have been removed from the last quarter of 1943 and the entire year of 1944. Unable to remove infractions of all description in other years.

FOR RELEASE FRIDAY MORNING, FEBRUARY 15, 1946

NEW YORK STATE DEPARTMENT OF CORRECTION
ALBANY, NEW YORK

Commissioner of Correction John A. Lyons will reveal, in a report to be submitted to the Legislature today, that major crimes, as a group, (not yet printed) increased from 65,643 in 1944 to 73,417 in 1945, an increase of 11.8% and the largest number since the 79,948 reported in 1941.

Of the separate crimes in this group, reported to the F.B.I. as class I offenses and published in Uniform Crime Reports, auto theft is the only one which has shown an increase above the pre-war level. The number increased from 15,544 in 1944 to 18,745 in 1945, or 20.6% and the 1945 total is 2,600 higher than the previous peak, reached in 1941. Robbery showed the largest percentage increase, 33.7%, from 1,230 to 1,645, but the figure is exactly the same as the 1941 figure and several hundred less than the level maintained between 1937 and 1940, with between 1,800 and 2,000 robberies reported each year.

Manslaughter by negligence is the only one of the major crimes which has shown a continuous steady decrease, from 1,252 in 1937 to 583 in 1944 and 603 in 1945. This is perhaps a reflection of the fact that these really represent accidents rather than crimes.

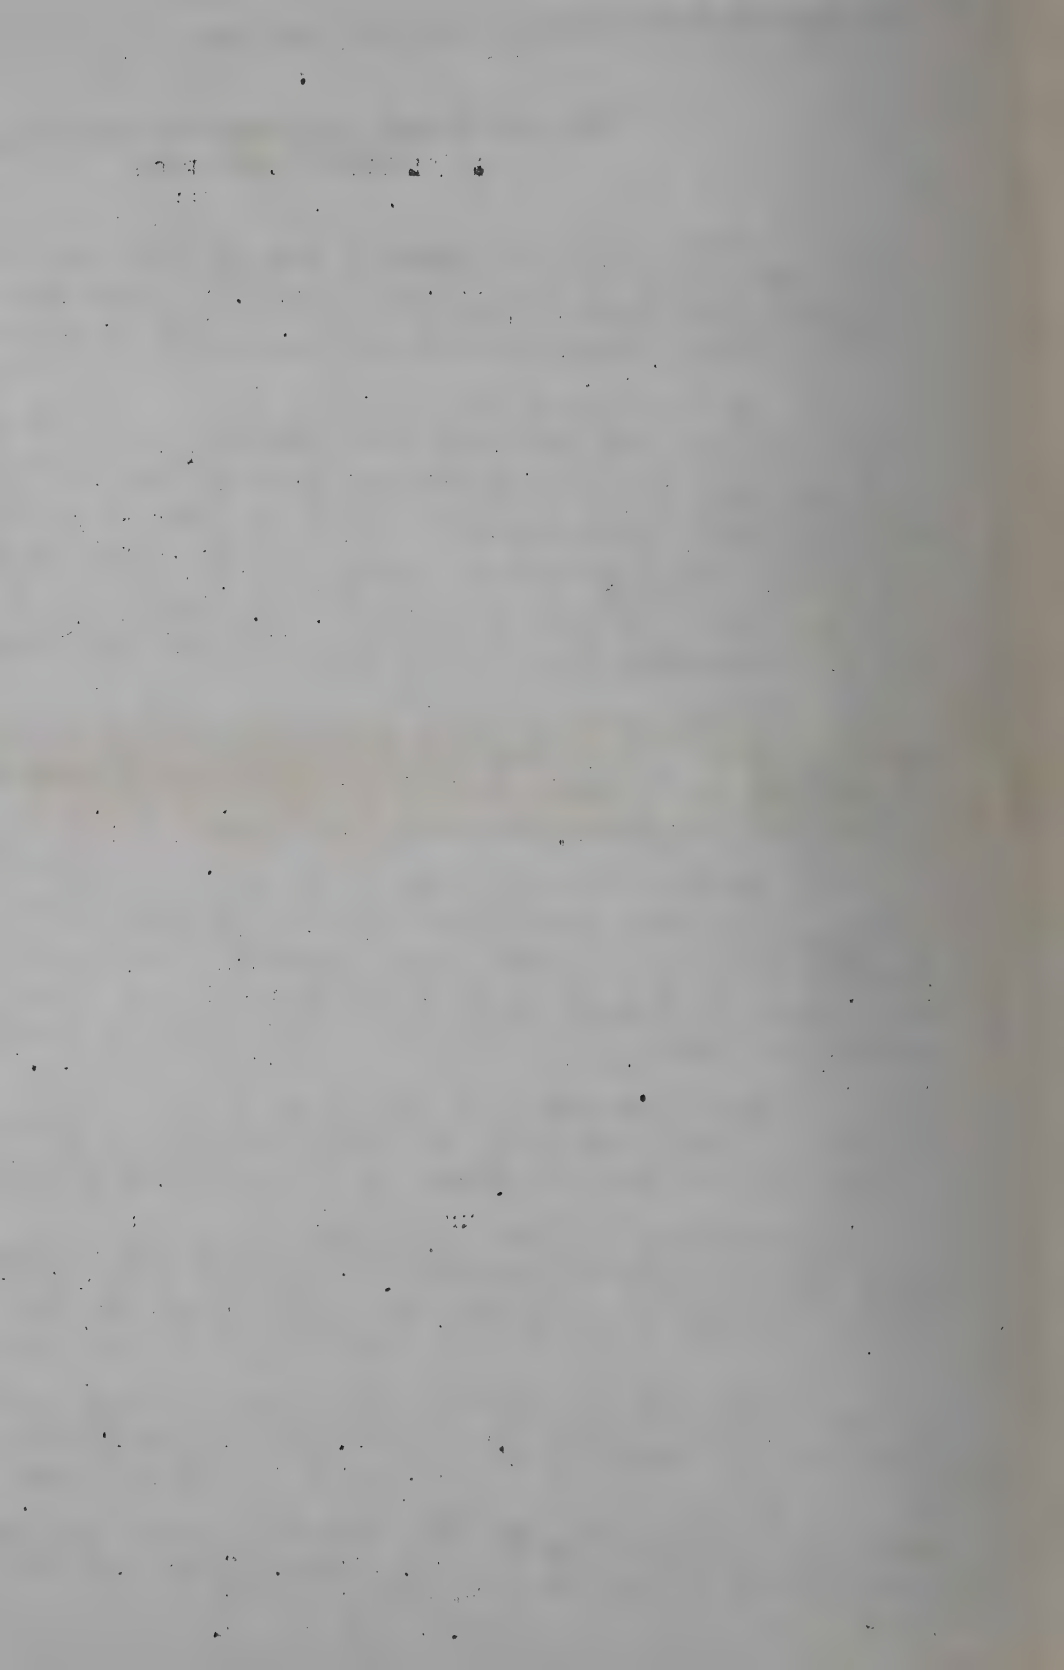

The cases of rape known to the police have shown comparatively little change in the entire period from 1937 through 1945; the 1945 total of 1,055 is 12.2% less than the 1,201 figure reported in 1944 and is the lowest figure reported in any year since the reporting system was established, in 1937—contrary to the increase shown in the figures of the F.B.I. for cities in the country as a whole.

There were 373 cases of homicide known to the police in 1945, an increase of 11.3% over 1944. The figure was exactly the same as the 1942 total, and lower than the figure for any year prior to 1942.

Felonious assault with 3,357 cases showed an increase of 4.8% over 1944, but was still considerably lower than the level of about 3,900 cases in 1937, 1938 and 1939; about the same as the totals for 1940 and 1941; and an increase over the level of about 3,200 cases for 1942, 1943 and 1944.

Burglary, with 12,639 cases, showed an 15.8% increase over 1944, and over the level maintained for the four immediately preceding years, but was lower than the totals for the peak years of 1939 and 1940.

Grand larceny, not auto, with 4,707 cases, was practically unchanged from 1944, slightly lower than the totals for 1943 and 1942, and considerably lower than the totals for 1941, 1940 and 1939.

Petit larceny has not been included by the Correction Department in the group of major crimes in previous years, but is being included this year, to make the group comparable to the group of class I offenses published periodically by the F.B.I. for cities in the country as a whole. Petit larceny, with 30,293 cases, showed an increase of 8.4% over 1944. The total for 1943 was practically the same as 1944, but the totals for the pre-war years, 1939-1941, were all considerably higher.

To summarize the situation for major crimes, the 1945 figure for New York State shows a beginning upturn after the lower level during the war years, while so many men in the age group which contributes a large part of the criminal population were in military service. The 1945 figures are not yet at the pre-war levels, for major crimes as a group, or for any individual crime except auto theft.

The total of felonies and misdemeanors of all descriptions reported to the police (exclusive of violations of the motor vehicle law and village ordinances) increased 4.8% during 1945 over the total for 1944. The total number of these felonies and misdemeanors was 184,827 in 1945, 176,406 in 1944, and 192,756 in 1943. Thus the 1945 total was still 4.1% less than the figure for 1943. It is worth noting, furthermore, that the 1945 total is 25% or more less than the level of 246,000-266,000 level that was maintained every year from 1937 through 1942.

A very large part of the drop in total crimes which occurred between 1942 and 1943 and has been maintained since was in known cases of public intoxication, disorderly conduct and vagrancy. The sum of these three offenses was between 97,000 and 107,000 every year from 1937 through 1942, dropped to 70,000 in 1943, and 60,000 and 62,000 respectively in 1944 and 1945.

December	34.2	30.3	3.9	32.1	24.8	5.6	1.7

Note.—The data was furnished by the district attorneys of each county, except in the County of New York where the data was furnished by the Clerk of the Court of General Sessions. The column "Origin in Grand Jury" includes those cases originating in the first instance in the grand jury room, either from information in the hands of the district attorney or in possession of the individual grand jurors.

The offense indicted for is the key to be followed as to the offenses. If no indictment was returned, the offense charged is shown.

Reports for the months of November and December for Livingston County are not included. No reports were received from the District Attorney of Steuben County.

† Total before the preliminary courts, plus those originating in the grand jury, such as additional indictments, bench warrants, etc.

‡ Total before the court less those returned to those courts by the grand jury.

* Exclusive of those returned by the grand jury, although included in the columns and lines showing outcome of cases in the preliminary courts following the second hearing of the charge.

See footnotes on Tables Nos. 40 and 41.

Table No. 40

**COMPARATIVE PERCENTAGE DISTRIBUTION OF OUTCOME
OF CASES IN PRELIMINARY COURTS**

OUTCOME	1944	1943	1942	1941	1940	1939
Total Arraigned (No.)	14840	14264	16386	17695	20071	20488
\$Total Arraigned (Pct.)	100.0	100.0	100.0	100.0	100.0	100.0
Convicted Same Offense	4.7	5.0	4.9	4.4	3.2	3.9
*Convicted Lesser Offense	6.6	9.2	7.4	10.8	11.4	13.2
Acquitted or Dismissed	23.8	24.3	23.1	23.2	22.4	24.6
Complaint Withdrawn	1.0	1.0	.5	.6	.5	.7
†D.O.R., Bail Discharged	2.1	1.9	1.9	2.6	2.0	2.5
Otherwise Acquitted	1.1	.6	.2	.3	.3	.7
Held for Grand Jury	64.1	60.8	64.4	61.8	63.3	58.0

§ The sum of the percentages exceed one-hundred because those returned by the grand jury are included in the line "Held for Grand Jury" as well as in the distribution of outcomes following their return to the lower court.

* Includes felonies reduced to misdemeanors resulting in conviction for the misdemeanor following the hearing or trial in the lower court.

† D.O.R., should be read as Discharged Own Recognizance.

Variation in the offense is measured from the offense named in the complaint or information.

Table No. 41

**COMPARATIVE PERCENTAGE DISTRIBUTION OF OUTCOME
OF CASES BEFORE THE GRAND JURY**

OUTCOME	1944	1943	1942	1941	1940	1939

Returned to Preliminary Court	4.8	4.1	3.7	5.3	4.3	5.5
Disposed of Otherwise2	.1	†	†

‡ Represents indictments returned for offenses brought to light in the grand jury room, the defendant not being in custody.

* Represents indictments and attempts to secure indictment for additional charges against defendants already in custody and charged with another offense.

† Less than one-tenth of one percent.

Variation in the offense is measured from the offense charged in the complaint.

Table No. 42

**COMPARATIVE PERCENTAGE DISTRIBUTION OF OUTCOME
OF CASES IN TRIAL COURTS**

OUTCOME	1944	1943	1942	1941	1940	1939
Total Arraigned (No.)	7892	7119	8884	9211	11151	10340
Total Arraigned (Pct.)	100.0	100.0	100.0	100.0	100.0	100.0
Convicted Same Offense	30.8	36.3	37.1	39.4	40.9	45.2
Convicted Lesser Offense	8.0	7.5	8.2	6.4	6.4	6.2
Convicted of Misdemeanor	31.4	35.2	36.8	35.9	32.2	28.9
Convicted Otherwise	1.1	1.3	1.1	1.1	.8	1.2
Acquitted by Jury	3.0	3.6	3.6	4.1	5.5	5.9
Indictment Dismissed	9.0	11.5	9.9	9.9	9.5	8.7
D.O.R., Bail Discharged	2.0	2.0	1.9	2.3	2.7	2.2
Acquitted Otherwise	14.6	2.6	1.2	.8	2.1	1.7

Variation in the offense is measured from the offense named in the indictment. Where a change in the degree is the only variation it is interpreted as the same offense.

D.O.R. should be read as Discharged Own Recognizance.

Note.—Ciphers following points denotes months.

† Number insufficient to establish a median.

Exclusive of life and death terms.

Chapter 70 of the Laws of 1936 makes it mandatory to impose indeterminate sentences on all prisoners.

The computation of the median for definite sentence prisoners is therefore discontinued.
